LATEST FROM HONOLULU.

Advices Up to September 26 Brought by the Steamship Australia.

SAN FRANCISCO, Oct. 4.—The steamship Australia has just arrived from Honolulu bringing advices to Sept. 26. The house defeated the bill to subsidize a steamship line between San Diego, Cal., and Hawaii. Charles L. Arnold, dealer of a steamship of the line on Sept. 24 at Honolulu. He was a native of Pennsylvania, and a member of George DeLong Post No. 45, G. A. R.

On Sept. 20 the National reform organ contained an editorial referring to the cabinet, entitled "They Had Better Go Out." Mr. Bush and Mr. Parker, members of the house, are understood to be leading the movement against the cabinet.

DETECTIVE MURPHY STILL MISSING.

His Brother Arrives in San Francisco Without Hearing from Him.

SAN FRANCISCO, Oct. 4.—Chief of Police Murphy, of Columbus, O., has arrived here to take charge of William H. Clark, of President, who is accused of committing a criminal assault upon a little girl named B. Higgins. A brother of the girl accompanies Murphy to identify Clark.

Detective James Murphy, a brother of Chief Murphy, left Ohio on the 15th of last month to arrest Clark, but has not been heard of since he arrived at Ogden. He had a large sum of money and a full play is suspected. Chief Murphy says he will make a thorough search for his missing brother.

Fullemann Shot by a Boy.

FRANKFORT, Ind., Oct. 4.—Thursday afternoon Deputy Marshal George Bird arrested Arthur Palmer, a mere boy, on the charge of horse stealing. The officer had just reached the entrance to the jail when the prisoner, who quietly walked at his side, drew a revolver and fired the bullet taking effect in Bird's left side. The officer fired one shot at the boy as he ran away, but it missed. Palmer, however, was so badly frightened that he stopped and the wounded officer secured and held him until assistance arrived. Officer Bird's wound is pronounced fatal. Palmer's home is at Russellville, where he lived with his widowed mother.

Excursion on Train Jumped the Track.

EVANSVILLE, Ind., Oct. 4.—A special to the Cincinnati from Hazleton, Ind., says: No. 1, the state and train on the Evansville and Terre Haute road, had a narrow escape from a serious accident at White river bridge forty miles north of Evansville yesterday afternoon. The train was loaded with excursionists and on arriving there it was found that the front track had jumped the track and was on the second track. The crowd of women were panic-stricken for a few moments, but no one was hurt.

BRILLIANT FINANCIAL OUTLOOK.

Dun & Company's Review of Trade for the Week Just Passed.

New York, Oct. 4.—R. G. Dun & Company's weekly review of trade says: Never before has there been in any month so great an increase in the circulation of so large a payment of public debt as in the month just closed. The aggregate circulation is now \$1,438,072,709, having increased \$21,009,767 in September. Money markets in all parts of the country have returned to greater ease. Domestic trade is improving in all directions, and at least for the time there is also improvement in exports, which now show for the past month a gain of 1 percent over last month at New York. Conditions also favor abroad, and a bank of England has declined to raise its rate.

Of the magnitude of domestic trade, it appears that actual payments through clearing houses outside New York were in September 16 1/2 percent greater than last year. This is partly due to higher prices for the general average of commodities has risen 10 percent during the past week. At Chicago cotton receipts in September were the largest ever known for that month. Receipts and exports of cotton both were much above last year. Memphis circulars state that 801 reports show an increase of twelve pounds per acre over last year in the yield, though continued rains cause a gloomy feeling at present. The sales of wool at Boston exceeded 1,000,000 pounds last week. Sales of iron ore at Cleveland thus far this year are 8,500,000 tons, exceeding last year's to date by one-third.

Boston notes healthy and encouraging trade in New England. Philadelphia reports more confidence and much improvement in wool. Chicago notes besides heavy receipts of grain, meats and cattle, a larger trade in dry goods than last year. St. Louis notes unusual activity in all lines. Cincinnati reports very liberal orders for clothing and a good trade in tobacco. Milwaukee notes very good trade. At Savannah trade is very brisk. At St. Paul and Minneapolis, Omaha, Denver and Kansas City it is very good. At Detroit better than last year, and at Pittsburg large in volume.

The iron market is singularly sustained in spite of unprecedented production by the unpreceded demand for plates, bar, sheet and structural iron and wrought pipe. Lake copper is firmly held at seventeen cents and lead is strong at five and thirty-seven hundredths cents. Cotton and coffee have been unchanged in price.

The details given show that in all parts of the country, and in all important branches of business, there is phenomenal activity.

The business failures occurring throughout the country the past seven days number for the United States 106 and for Canada 31, or a total of 137, as compared with a total of 219 last week and 190 the week previous to the last. For the corresponding week of last year the figures were 206, representing 172 failures in the United States and 34 in the Dominion of Canada.

PRESIDENT HARRISON'S TRIP.

A Number of Places to Be Visited During the Next Ten Days.

WASHINGTON, Oct. 4.—The itinerary of President Harrison's western trip has been decided on. The presidential party will leave Washington via the Chesapeake and Ohio railway on Monday morning, Oct. 6, arriving the next morning at Cincinnati, where the Ohio and Mississippi road will be taken for Danville, Ill., short stops being made at Vandalia, Ill., and Terre Haute. At Danville the Indianapolis, Bloomington and Western road will be taken for Galena, where the party will arrive on Wednesday morning.

Wednesday the president will attend the reunion of his old brigade at Galesburg, and on Thursday will go to Ottumwa, Iowa, where the party will visit the coal palace exposition, leaving for Topeka Thursday night and arriving there the next morning. Most of Friday will be spent in Topeka, and in the afternoon the president will go to Kansas City. Two hours' run from Topeka. The president will spend a few hours in Kansas City with his brother who resides there, and leave that night for St. Louis, reaching there Saturday morning. The party will leave St. Louis Saturday afternoon for Indianapolis where Sunday will be spent.

On Monday morning the party will leave Indianapolis at 6 o'clock and make brief stops at Anderson, Muncie, Winnet, Union City, Versailles, Sidney, Bellefontaine, and at Marion, Castine, Mansfield, Massillon, and O., arriving at Pittsburg 7:30 p. m., and at Washington early Tuesday morning, Oct. 14. The president will be accompanied by secretaries Tracy and Rusk, Private Secretary Halford, Marshal Randall and Capt. Meredith.

The president will travel the entire journey in an elegant hotel car, furnished by the Chesapeake & Ohio road, in charge of Charles R. Bishop, its general eastern passenger agent. Portions of the trip will be made by special trains, and other portions with the regular express trains.

Five Men Instantly Killed.

PERCY, Tenn., Oct. 4.—Yesterday about 4 o'clock at Chewala, McNairy county, five men were instantly killed by the explosion of the steam mill boiler belonging to Mr. Gurley, who had recently bought the mill. Gurley's body was torn into shreds. William Johnson had his head torn from his body, and it was thrown fifty yards from the mill. Walter Pittman and his brother and a son of Gurley's were killed. A negro was badly injured and it is thought he will die. There was another person injured, but not seriously.

ANTI-LOTTERY LAW.

Instructions Sent Out to Postmasters.

OF INTEREST TO THE PUBLIC.

Provisions of the Act and the Kind of Mail Matter It Affects.—The Term "Lottery" Defined.—Other News Telegraphed from Washington.

WASHINGTON, Oct. 4.—The following instructions, embodying the construction placed upon the anti-lottery law by the post-office department has been mailed to postmasters throughout the country:

"The law applies to any letter, ordinary or registered, if it concerns any lottery, gift concert, or scheme described in the section, and to lottery tickets, checks, drafts, bills, money, postal notes, or money orders for the purchase of lottery tickets, or any share or chance in a lottery or gift enterprise, and to the list of the drawings at all similar schemes, and for bids for delivery of mails.

"The seal of a letter, or of any sealed or packet prepared at letter rates, must not be disturbed for the purpose of ascertaining if its transmission in the mail, or its delivery at a post-office, is forbidden by the provisions of this act. Nor will the mere suspicion that such letter or packet relates to a lottery, or the fact that it is addressed to any person known to be engaged in the business of conducting a lottery, justify its detention or non-delivery, except that the deliverer letters at office of destination shall be withheld when the postmaster general has issued specific orders, under the provisions of Section 3923, to that effect.

"Postal cards and circulars unsealed, and all other unsealed matter when suspected of having been deposited or mailed in violation of the provisions of the act, shall be examined for the purpose of ascertaining their character. The mailing of such matter, if prohibited by this act by citizens to lottery companies and their representatives is as clear a violation of the law as the mailing of such matter by lottery companies to their customers or other persons.

"When it is known at the time of depositing them for mailing that postal cards or circulars are unsealed under the provisions of Section 3921, the postmaster should decline to receive them. If they be found in a post-office, the sender is unknown to the postmaster, or if they be discovered in the mail in transit, they should be withdrawn and marked or stamped 'fraudulent' and sent to the postmaster general, accompanied by a special report from the postmaster explaining the reasons for their detention.

"The provisions of this act apply to letters, postal cards and circulars concerning lotteries or similar schemes that come in the mails for foreign countries, and such matter so received should be treated as if it originated in the United States. Matter sent in violation of the provision of Section 3921, discovered by postmasters at intermediate offices, should be withdrawn from the mail and disposed of in the same manner as if it had been discovered by the postmaster at the office of mailing, or the office of delivery. But postmasters at intermediate offices should not delay the transmission of other mail in making special search for anything defined by this act to be unlawful.

"Newspapers, pamphlets and publications of all kinds, bearing date before or since the 15th day of September, 1890, at which date the act took effect, which contain the advertisement of any lottery, gift, enterprise, or similar scheme, or the whole or part of the list of prizes awarded at the drawings of lotteries or similar schemes, are, by the provisions of this act, denied carriage in the mails or delivery to subscribers, addressed to, or to any other persons, or as sample copies. Postmasters should refuse to receive them from publishers or to deliver them if by inadvertence they reach the office of destination. When found by postmasters in the mail in transit, they should be held until a report concerning them can be made to the postmaster general, and instructions received from him as to the disposition of them.

"Foreign newspapers, pamphlets and publications of all kinds containing printed matter forbidden by the provisions of this act, should be treated as if they were published in the United States.

"Checks in the railway mail-service conveying matter, the carrying of which is forbidden by the provisions of this act, should be withdrawn and forwarded to their respective division superintendents. Division superintendents should treat such matter in the same manner as postmasters are herein instructed to treat it.

"The term 'lottery' as used in this act embraces all kinds of schemes, general or special, for the distribution of prizes by lot or scheme, such as gift exhibitions, raffles, raffles, or the drawing of prizes for money or property at fair, fairs, lotteries, postal cards and circulars containing them, and newspapers, pamphlets and other publications containing advertisements of them are prohibited.

"The provisions of the law relating to registered letters and to money orders apply to such matters at offices of delivery and are to be enforced upon the direct orders of the postmaster general.

Board of Naval Officers.

WASHINGTON, Oct. 4.—The secretary of the navy has appointed a board of naval officers to investigate the conduct of the late Admiral A. V. Wadsworth, and Chief Engineer Allen to visit him and report on all naval and mercantile vessels arriving there. A similar board is now in session in New York, the object of the inspection is to ascertain as nearly as possible the kinds of goods imported from countries and the

best improvements in naval methods and warfare.

Clarkson Will Go to China. WASHINGTON, Oct. 4.—The Post publishes the statement that Ex-First Assistant Postmaster General Clarkson will go as United States minister to China after the congressional election.

NOTHING SURPRISING.

A Millionaire's Will to be Contested in the Chicago Courts.

CHICAGO, Oct. 4.—The will of the late John Cramer, which disposed of an estate of over \$3,000,000, much of it being bequeathed to charitable and religious institutions in this city, is to be contested, and court proceedings will soon be commenced in what will probably prove to be one of the most celebrated cases of the kind on record.

The contest is made by relatives of the deceased, on his father's side, none of whom are named in the will. The soundness of the mind of the testator or his right to give little or much to the heirs named in the will are not questioned or attacked in any way, but the vast sums sought to be given to charities and benevolent institutions, reaching in the aggregate over \$2,000,000, are attacked and pronounced illegal and contrary to law and equity.

Near Brakenham Causes a Wreck.

OMAHA, Oct. 4.—A World-Herald Cheyenne special says: The eastbound Union Pacific passenger train No. 2 ran off the track at an open switch at Rock Creek station yesterday. The engine and six cars went into the ditch. Engineer Watson and Fireman Carr were carried by the escaping steam. W. A. Carr was a passenger, en route from Oregon to New Orleans, was bruised about the head and back. He was sent to the Union Pacific hospital at Denver. Several passengers received slight injuries. Fireman Carr's injuries are fatal. The blame for the accident rests upon Thomas Hall, rear brakeman of a freight, which preceded the passenger train.

Walking Delegates Dismissed.

NEW YORK, Oct. 4.—A peculiar episode took place in the court of general sessions yesterday. The grand jury brought in an indictment for conspiracy against the full board of walking delegates of the building trades. It was evident that the indictment had been found without the consent of the district attorney, as he arose in court and moved that the be dismissed. Recorder Smith immediately dismissed them. The indictment was found in connection with the boycotting of brick manufacturers.

The Niagara Falls Tunnel Begun.

NIAGARA FALLS, N. Y., Oct. 4.—The ceremony of turning the first sod for the Niagara Falls tunnel will take place today. The officers and engineers of the Cataract Construction company and Niagara Falls Tunnel and Power company will meet at Tenth street, where shaft No. 1 will be sunk and each one will take out a shovel full of earth on a plated shovel. The ceremony will be made the occasion of a general jubilee. A reception will follow at the Cataract house.

The Minister Made No Defense.

SRANTON, Pa., Oct. 4.—The breach of promise case of Anne Husaboe against the Rev. Peter Roberts, pastor of the Plymouth Congregational church, one of the leading churches in the Hyde park section of this city, ended with a verdict in her favor for \$3,000 damages. No defense was offered. The official board of the church has been called to take action on the verdict.

HOTLY CONTESTED

The 2:30 Trot of Wednesday Evening and Thursday a Race for Blood-Other Races of the Fair.

The 2:30 trot that was on the County Fair program for Wednesday afternoon, but which was continued until Thursday, was the most exciting and closely contested race of the Fair, with the possible exception of the free-for-all pace of today. The race was for blood from the beginning and the result was a surprise. Maude Stillson being the favorite at the start. There were six entries as follows: Dawn, ch. m., D. M. Bell Ashley; Blanche Morrison, b. m., Nate Jones; Ada; Sigma Nue, b. s., A. T. Tallman; Kenton; Gas, b. g., Watkins Bros.; Prospect; Maude Stillson, ch. m., Glen Patterson; Mansfield; K. P., b. g., N. W. Spratt; Richmond.

The race was called Wednesday afternoon and two heats trotted when overtaken by darkness. In the first Maude Stillson won, closely followed under the wire by K. P., with Gas third. In the second Sigma Nue got first, Gas second and K. P. third; Stillson broke, fell behind and was compelled to run the entire course to save her distance.

The race was then postponed until Thursday at 10 o'clock but was not called until about half past that hour. It took some time to get the horses off, with Sigma Nue at the post. K. P. was in excellent condition and soon showed his mettle by getting in the lead, which he kept until he got under the wire, followed by Gas, Dawn third, Blanche Morrison fourth, Sigma Nue fifth and Stillson, the favorite, sixth. The rest of the story is told in the summary, the race not being finished until the afternoon and requiring seven heats.

Time: 2:37, 2:36, 2:37, 2:37, 2:39, 2:39, 2:39, 2:39.

THE RUNNING RACE—PURSE \$200.
The running race was called amid a heavy rain, and the track was a sea of mud and water. There were three entries—Wren, M'iss and Burt. The latter was an easy winner, and Wren and M'iss had a hard run for second. Following is the summary:

Summary:
1 mile dash, 2 in 3
Wren.....2 3
M'iss.....3 2
Burt.....1 1 1
Time: 1:00, 58.
2:30 PACE—PURSE \$200.
This race also took place in mud and water. After the first Dick Hipple's Gloster showed some steady work and proved a good mud horse. He took the second and third by good, steady work, but in the third he lost a boot and was constantly off his feet. He got the fifth easy, however, and won the race.

Friday's Races.
THE STAKE RACE.
The racing Friday afternoon was without any special interest, but was witnessed by an immense crowd of spectators. The first called was the stake race, mixed, for three-year-olds and under, in which there were three entries, in which was J. J. Williams' Amarilla, D. H. Harvey's Rocky Ford Maid and Brewer & Thomas' Higha, a two-year-old. In the first heat Amarilla's sulky collided with that of Harvey's nag, during which Harvey was thrown out and the colt got away and ran around to the quarter pole. It was stopped without damage, however, and finished the race. The little two-year-old pacing mare of Brewer & Thomas had it her own way from the start, and won the race according to the following summary:

Summary:
Amarilla, b. m.....2 2 2
Rocky Ford Maid.....3 3 3
Higha, b. m.....1 1 1
Time: 3:02, 2:59, 2:59.

FREE-FOR-ALL TROT—PURSE \$50.
This was the best race of the day, but the heavy track made the time slow. There were four entries—Etoil, Blanche Morrison, Beech Nut and Meadow Maid. It was an easy victory for Blanche Morrison after the first heat, that one being carried off by Beech Nut, with Etoil second, Meadow Maid third and Blanche fourth. In the second running Blanche Morrison finished first, Meadow Maid second, Beech Nut third and Etoil fourth. Blanche Morrison took the third, Beech Nut and Meadow Maid reversed their positions under the wire, and Etoil had the flag dropped on him. He was allowed to go in again, however, the judges explaining the reason to be an unavoidable accident. In the fourth Blanche Morrison repeated her former two performances, with Etoil second, Beech Nut third and Meadow Maid fourth.

Summary:
Blanche Morrison.....2 4 2
Etoil.....4 1 1 1
Beech Nut.....3 2 2
Meadow Maid.....3 2 2
Time: 2:42, 2:42, 2:45, 2:47.

THE LAST RACE.
The last race was a mixed race for a consolation, in purse, and it was a Seel, Dandy Walker and Mohawk Chief were entered. It was very uninteresting, like most consolation races, and He's A Seed was an easy winner in three straight heats.

Summary:
He's A Seed.....1 1 1
Dandy Walker.....2 2 2
Mohawk Chief.....3 3 3
Time: 2:50, 2:52, 2:51.

THE CLOSING DAY.

THREATENING WEATHER PROVES INSUFFICIENT TO SPOIL THE FAIR.

Friday Proves a Successful and Enjoyable Day, and Today There was a Large Crowd and Reasonable Pleasure Despite the Drizzling Rain 5000 People Friday, 5000 Today.

The weather has done everything possible to spoil our great annual Fair and yet the only thing it could seriously effect has been proof against unfavorable circumstances. The exhibit has been what was promised—a great one in all ways, and the attendance has been very large. Of course it might have been larger, indeed it would have been surprisingly large had the sun shined, yet Friday came up with fully 5000 people present and today—a continued day of the Fair—there are from 5000 to 6000 people present. The enjoyment of visitors has been marred, of course, by the wind and rain, but the races have compensated for the lack of comfort in other ways, and things have passed off nicely. The society is in high glee over the financial success.

The parade of premium stock took place at 1 o'clock this afternoon and the races were called shortly after and an interested crowd of spectators enjoyed them.

The big crowd wanted to see Seito Girl go and were granted that pleasure in the free-for-all pace, which the handsome mare won easily in the three heats. Mr. Laird gave her a good go in the last quarter of the last heat and a 2:16 gait was shown, but the best mile paced was 2:30. Johnny M. took second money, Buckeye Girl third. The novelty running race was won by Burt, with Marion Boy as the only competitor. The consolation trot between K. P., Irish Boy and Smuggler Boy was easily won by Irish Boy, with K. P. second.

Exhibit by Homoser & Wren.
The large stove house of Homoser & Wren has an interesting exhibit of fine stoves, ranges, grates and mantels in Mechanic's Hall. A new and beautiful line of cook and heating stoves, with embossed tile hearths, compel admiration on every side. They show an exquisite, nickel-plated Peninsular, which is pronounced the most artistic piece of furniture in its line ever shown here.

The Born Steel Range shown by them is a model of beauty, convenience and utility. They have the ever popular new process gasoline stoves in thirty different styles and sizes.

Magruder at the Fair.
The Novelty Saddle Works of T. J. Magruder were never so well represented at the Fair as by their display this year. The exhibit is admirable as a whole, and the individual parts of the display win much praise for their merits.

In harness there is the fine brass plated farm harness, something unusually attractive in that line, the fine rubber mounted carriage harness, the genuine rubber mounted single buggy harness, very finely wrought, and the handsome nickel-plated work harness. The exhibit of robes, in both plush and fur, comprises a line that is unequalled at any fair, and much finer than has formerly been shown here. This department, too, includes blankets and suits for horses. There are saddles, also, both handsome and durable and both for ladies and gentlemen. An attractive line of satchels and other traveling goods is also shown, making in all, as has been said, a very fine exhibit for Magruder's large establishment.

Sam Oppenheimer a Winner.
Mercantile enterprise always finds pleasant and progressive ways for extending its domain. So it was but fitting that the great One Price Clothing House of Sam Oppenheimer should be represented at the Fair. Only space enough was allowed him in Art Hall to present an epitome or compendium of his mammoth stock in Bennett Building. Sample lines of fine, medium and cheap suits and overcoats for all ages comprise everything from a forty-five cent overcoat to a fine twenty-five dollar suit. From his elaborate lines of furnishing goods comes admirable sample shirts in all styles, underwear of all grades, neckwear in bewildering profusion, hats and caps in latest styles, gloves, mitts, socks rubber and leather goods at tempting prices.

This cleverly arranged and complete display was awarded first premium by a Fair committee of three tailors selected by the society.

A Feature of Art Hall.
Mr. Craig's exhibit of pianos from the renowned music house of D. H. Baldwin & Co., which he represents, has added largely to the attractiveness and entertainment at Art Hall.

First in order are shown the beautiful Decker Brothers piano, in fine mahogany. No manufacturer of instruments in the world, perhaps, exercises greater care in building instruments than Decker Brothers, requiring eighteen months to season material, tone and complete a single instrument. Their labors are rewarded by the production of a piano with a tone of unusual sweetness, and is known as the Decker tone.

Mr. Craig's next is a Haines Brothers piano, in mottled walnut. The Haines is a strictly first-class piano, unsurpassed in tone and action, being the favorite of the noted prima donna, Adeline Patti, who receives \$4,000 a night for her singing. The J. & C. Fischer enjoys the proud distinction of being the favorite instrument at the White House and at the

BILL NYE DEVOTES A LETTER TO TIN AND OTHER WEDDINGS

If You Are Certain of Getting Gifts Enough to Pay for the Cakes and Other Things Distributed, Go Ahead. If You Are Not, Don't.

"Anxious Inquirer," of West End, writes: "I have just received your issue of the 10th inst. and have read with interest the various wedding anniversaries mentioned throughout the country, and also the stationery and envelopes of the city which are mentioned. 'Anxious Inquirer' also adds: 'We have plenty of a sort of handkerchiefs, but we are great hands for anything in any household would just make a good bargain when he gets to the party. I will him tell the Sunbeam, though he is quite good size, and I have to have now put into his waistcoat every year. Whether it is a bare raising or a revival I care not, you will always find a group of surprised and delighted admirers hanging about my Little Sunbeam. We thought of having a tin wedding next season if we could get an idea of how to go at it, and quietly swap a few glad smiles and big red apples for milk pans and a new tin roof, melba, for the house. He is just as popular as he can be (that is, my husband is), and I am sure the folks would come from as far back as East Turner and Gangrene City. Please tell us all about it, old man, and thus please one who reads everything you write and treasures it for years. I have a photograph of ribbon for you to write your photograph on in indelible ink for your grab bag. We have also wrote to Tallmadge and Mr. Sullivan to favor us in the same way. We asked Ingersoll, the last and undone constabulary of an irate God, to write a sentiment on a piece of silk for our quilt, and he wrote on it in indelible ink so's to spoil the block it was wrote on."

"Why in the name of that ill ventilated future state toward which I most hope that you are hastening do you ask me to write my autograph on an old hat lining?" R. G. Ingersoll.

"Thosilk had been, I admit, the lining to Little Sunbeam's hat that he was married in, but I declare I didn't think that a man with as few privileges as Ingersoll has had would ever drop on it."

Marriage anniversaries are ignored by some people, while others regard them with awe and admiration. It is well enough to observe them, especially if you feel that you are "popular" with the masses, and can get a good return for each gob of cake that is ground into your ingrain carpet.

After you and Little Sunbeam had been successfully wedded for one year you were entitled to a cotton or safety pin wedding. You could avail yourselves of the anniversary to barter popcorn for music if you had so decided. I do not know that it pays. His Royal Altitudo, the Prince of Wales told me last summer in a burst of confidence, as we strolled out to the barn after the marriage of his daughter, that his cotton wedding was really a loss to him.

Folks, he said, that had means, and had credit at the store for all the sheeting and spreads and such stuff that they had a mind to buy, came to his house on that occasion, deposited in the royal archives a penny wipe or a cheese cloth portfolio, and then gazed themselves on the grub of the Gaults till the cows came home, as he expressed it.

After two years comes the leather wedding, and in five years from the nuptials comes the wooden wedding. A clergyman friend of mine had a wooden wedding in all sincerity and honesty of purpose. Donations had taught him not to hope for anything more than kind expressions and some new samples of hair oil on his wall paper, but he loved his congregation, and liked to show as far as possible that even if he did feel a little more secure for the future than he did, he was not disposed to refer to it any more than necessary. He was a good man, and he earned his salary just as faithfully as he would have done.

Well, he had a wooden wedding, and his wife reversed the skirt of her blue dress and put in new wet and shivers for the occasion, and cooked up with a lot of wholesome vittles, and bought some Chinese lanterns with the money her folks had sent her to buy other things.

I HAVE A PENDING PRESS.

with the engraved medals, drove their teams over the commoner and went home. He died last year, just before time to celebrate his tin wedding. I have always believed that a portrait of a man would have saved his life. His congregation submitted to the inevitable and got another leather shroud to take his place. Possibly they got an orchid.

The tin wedding occurs at the tenth anniversary. At twelve years silk and linen are the general characteristics. At fifteen years comes the crystal, at twenty the china, at twenty five the silver wedding, at thirty pearl, at forty ruby and at fifty the golden wedding. The seventy-fifth anniversary is called the diamond wedding, but very few succeed in getting that far hand in hand.

Your job printer will show you what style of invitation to issue, so that you will have no trouble in regard to that.

As regards refreshments you must use your own taste, and conform to what the customs of the place in which you live. Some just pass on and the victims say about 9 or 10 o'clock, and let her go at that. A good idea is to avoid so far as possible going into perishable grub. Get things that will keep, and then serve after you have run your eyes smartly over the gifts.

A friend of mine got all ready once to feed his guests with the fat of the land, but after seeing the layout he shot a watermelon and went to bed, leaving word in an amiable way for the butler to turn off the gas as soon as the guests went home.

It was a royal wedding, and he told me that night of the guests clubbed together and bought him a glass marble with a little marl turtle in it. At first he thought that he would seek relief in the false joys of rum, but later on he yielded to better counsels and bought a present for one of those friends who was about to have a tin wedding. It was a thing to use in pouring off checks, and he made it himself out of an unused food oyster can. He also got the entire list of guests to unite with him in the response. This did much to break up the custom of exchanging riddles for carved furniture, or fragments of old-time witticisms for a set of snuff-boxes or cut glasses.

The Prince of Wales told me that he had his life to lose when he would not marry for any of these things. In fact he had a tin wedding, and he was better off than he was when he was a bachelor. He had a tin wedding, and he was better off than he was when he was a bachelor. He had a tin wedding, and he was better off than he was when he was a bachelor.

Well, he had a wooden wedding, and his wife reversed the skirt of her blue dress and put in new wet and shivers for the occasion, and cooked up with a lot of wholesome vittles, and bought some Chinese lanterns with the money her folks had sent her to buy other things.

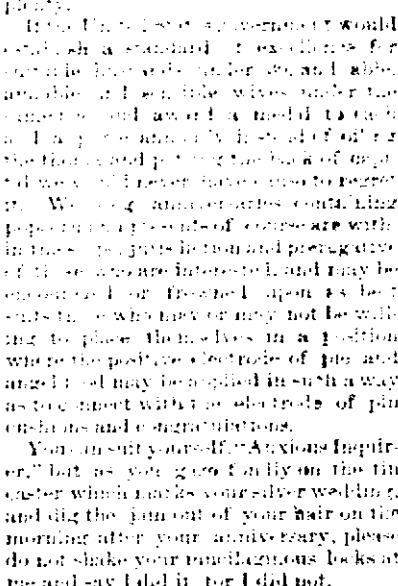

After two years comes the leather wedding, and in five years from the nuptials comes the wooden wedding. A clergyman friend of mine had a wooden wedding in all sincerity and honesty of purpose. Donations had taught him not to hope for anything more than kind expressions and some new samples of hair oil on his wall paper, but he loved his congregation, and liked to show as far as possible that even if he did feel a little more secure for the future than he did, he was not disposed to refer to it any more than necessary. He was a good man, and he earned his salary just as faithfully as he would have done.

"Anxious Inquirer," of West End, writes: "I have just received your issue of the 10th inst. and have read with interest the various wedding anniversaries mentioned throughout the country, and also the stationery and envelopes of the city which are mentioned. 'Anxious Inquirer' also adds: 'We have plenty of a sort of handkerchiefs, but we are great hands for anything in any household would just make a good bargain when he gets to the party. I will him tell the Sunbeam, though he is quite good size, and I have to have now put into his waistcoat every year. Whether it is a bare raising or a revival I care not, you will always find a group of surprised and delighted admirers hanging about my Little Sunbeam. We thought of having a tin wedding next season if we could get an idea of how to go at it, and quietly swap a few glad smiles and big red apples for milk pans and a new tin roof, melba, for the house. He is just as popular as he can be (that is, my husband is), and I am sure the folks would come from as far back as East Turner and Gangrene City. Please tell us all about it, old man, and thus please one who reads everything you write and treasures it for years. I have a photograph of ribbon for you to write your photograph on in indelible ink for your grab bag. We have also wrote to Tallmadge and Mr. Sullivan to favor us in the same way. We asked Ingersoll, the last and undone constabulary of an irate God, to write a sentiment on a piece of silk for our quilt, and he wrote on it in indelible ink so's to spoil the block it was wrote on."

I HAVE A PENDING PRESS.

with the engraved medals, drove their teams over the commoner and went home. He died last year, just before time to celebrate his tin wedding. I have always believed that a portrait of a man would have saved his life. His congregation submitted to the inevitable and got another leather shroud to take his place. Possibly they got an orchid.

The tin wedding occurs at the tenth anniversary. At twelve years silk and linen are the general characteristics. At fifteen years comes the crystal, at twenty the china, at twenty five the silver wedding, at thirty pearl, at forty ruby and at fifty the golden wedding. The seventy-fifth anniversary is called the diamond wedding, but very few succeed in getting that far hand in hand.

Your job printer will show you what style of invitation to issue, so that you will have no trouble in regard to that.

As regards refreshments you must use your own taste, and conform to what the customs of the place in which you live. Some just pass on and the victims say about 9 or 10 o'clock, and let her go at that. A good idea is to avoid so far as possible going into perishable grub. Get things that will keep, and then serve after you have run your eyes smartly over the gifts.

A friend of mine got all ready once to feed his guests with the fat of the land, but after seeing the layout he shot a watermelon and went to bed, leaving word in an amiable way for the butler to turn off the gas as soon as the guests went home.

It was a royal wedding, and he told me that night of the guests clubbed together and bought him a glass marble with a little marl turtle in it. At first he thought that he would seek relief in the false joys of rum, but later on he yielded to better counsels and bought a present for one of those friends who was about to have a tin wedding. It was a thing to use in pouring off checks, and he made it himself out of an unused food oyster can. He also got the entire list of guests to unite with him in the response. This did much to break up the custom of exchanging riddles for carved furniture, or fragments of old-time witticisms for a set of snuff-boxes or cut glasses.

HOW ACTRESS GIVE POINTS TO SOCIETY QUEENS

The Marquise Lanza Says That All Modern Modes Originate on the Stage, and She Gives Reasons for the Faith That Is Within Her.

(Copyright by American Press Association)

EW people perhaps recognize the important part played by the stage in the fashion of life, especially in such matters as pertain to women's attire, dress, their trailing adds to the toilet, and the thousand and one bagatelles that go to make a feminine personality chic and attractive. Let any decisive and widely copied fashion make its appearance, and ten to one, if it has not been invented by royalty, it has originated on the stage.

In Europe it invariably happens that the great dressmakers who cater to the world of fashion exercise their genius first upon "creations" destined for actresses, and aristocratic dames do not hesitate to trail over the parapets of their exclusive salons the identical styles of costume that grace the beauty of Mme. This or Mlle. That, of the Comedie Francaise. If a really novel and beautiful gown is seen behind the footlights it is sure to appear later in the drawing room. This is not at all astonishing when one considers the prominence enjoyed everywhere by the theatre and its representatives. Look in our daily papers, and where you will find a column of meager details concerning the affairs of the nation you will discover two columns devoted to the stage, with a thousand personal notes of actors and actresses. Nobody objects to this. At least I do not.

For my own part I would sooner read about some leading lady's Paris wardrobe than about the president's cabinet or the gambols of Baby McKee. The stage represents the amusement of the people as well as the legitimate exercise of a fine art, and it is certainly entitled to as much respect as the other fine arts of baseball, horse racing and slugging matches.

Have you ever observed how little attention women in society really pay to each other's dress, although cynics will have it that they think of nothing else, and are in consequence given over to envy, hatred, malice and all uncharitableness? The fact is, where conversation, or what passes for conversation, are in evidence, nobody has either the time or the inclination to notice whether Mrs. Asterisk wears silk or satin, or whether her gown is draped or plain, or what sort of shoes she wears. You are too much occupied in pushing your weary brain as to what reply you can possibly make to Mr. Jones, when he stops talking, and then the minute details of your neighbor's fashionable fixings escape you. But I have observed actress step from her dressing room and pose for your benefit in a blaze of light, with an arrangement of pizazz and make-up, and draped in the sublime glory of a costly dress, and toilet imported for the occasion, and I defy even you, my friends, to gaze and sleep the sleep of the just immediately before your eyes. It is of the weak nature that belong to the human nature.

Without a doubt the most artistic dressing to be found anywhere is seen on the stage. An actress, if she has not genius or even the mildest sort of talent, can never be less than the best, and thus it is that the stage is the most perfect school for the fashion of life. When Mrs. Langmaid, the great American actress, first appeared on the stage, she was so beautiful and so graceful that it was impossible to gaze at her without feeling that she was a goddess. She was so beautiful and so graceful that it was impossible to gaze at her without feeling that she was a goddess.
